SOLUTIONS**

# AESTHETICALLY ENHANCING YOUR SYSTEM

With over 50 years of experience serving customers worldwide, The Schletter Group is one of the world's leading manufacturers of solar mounting systems and has a network of global solar distribution services and installation companies that they work closely with.

At Schletter Australia, we are committed to helping you create a solar panel system that excels in performance and aesthetic appeal.

In light of this, we've developed our black anodised solution with an industry-leading 20-micron coverage and modern finish that exceeds functional and aesthetic requirements. Enhance your solar experience with highly durable rails, clamps and other accessories.

## Peace of Mind

Schletter Group offers a 25-year warranty on all rooftop solutions manufactured in Schletter facilities.

## Timeless & Sleek

Achieving the right balance of form and function, Schletter's solar mounting systems provide superior performance without sacrificing aesthetics.

## Customer-Oriented

We continually refine our products to reach new levels of performance and design with environmentally responsible manufacturing methods.

## A True Statement Piece

Schletter's solar mounting systems are designed to complement your roof and transform it into a focal point, bringing the beauty of clean energy to your home.
